## MINOR FLAWS

Design: Stoft studio

**Concept** / Minor Flaws is a collection of individual glass lamps, caught in a moment, mouth-blown through a framework of metal rings. The lamps comes in four models, each lamp beautifully flawed and unique in their appearance.

Our own natural flaws are rarely desirable and often concealed from the outside world. We hide behind an image that we believe our surrounding prefers. Often we force ourselves into shapes that are uncomfortable in the belief that they might make us more beautiful. But like minor flaws small aberrations might also make something more memorable.

Minor Flaws have been developed by our desire to bestow material, craftsmanship and the handmade production a greater value in the design process. We have let go of control in favor of the handmade peculiarities. The starting point of the project was to design objects entirely adapted to a handmade blown glass production which an industrial production process couldn't replace. By enhancing qualities traditionally seen as flaws in a handmade production context we hope to show that what some define as imperfection is true perfection in the eyes of others.

## PRODUCT SPECIFICATIONS

**Material** / Tinted glass and brass

**Production** / Mouth blown in Sweden  
by Micke Johansson and Bergdala Glass works

**Light source included** / Dimmable E27 Clear LED bulb,  
7W, 2700K, 806lm

**Rated Watts** / Max 25 Watt

**Rated Voltage** / 220-240V 50/60hz

**IP-Class** / IP20

**Cable included** / 230 cm textile, colour linen

**Canopy included** / No

**Weight** / 2.5 - 4 kg

**Dimensions** / Ø 22 - 26 cm, height 30 - 42 cm

**Size of box** / 57 x 38 x 38 cm

**Usage** /

Indoor use only

The lamp shall be permanently and reliably connected to an earthing terminal or earthing contact.

## MODEL OVERVIEW

**Models** / The lamp is available in 4 different models:

ACORN

CHESTNUT

FIRONE

PINECONE

## STOFT STUDIO

**Stoft** is a Swedish word for millions of small particles, constantly moving and re-arranging into new and surprising constellations.

Our name was selected to evoke the importance of stories, small fragments and pieces that together create who we are. We want to share with you the stories that move us and make us ponder, that urge us to explore and create. Stories we have listened to and made our own, that we believe have the power to bring the entirety of the universe into our perceptual view.

**Stoft studio** is a Swedish design studio based in Malmö founded by Industrial designer (MFA) Jenny Ekdahl (middle), Joel Herslow (right) and Ola Nystedt (left).

Drawn together by a common fascination for how things move, sound and feel, their work builds on the trios complementary approaches towards design. They explore and break down what's predictable into fragments that are surprising and fascinating and focus on the creation of design through research in human behavior, materials and craftsmanship. Whether a conceptual or commercial project, a driving force behind Stoft's creative process is to find a balance between poetic design and industrial manufacturing. By exploring alternative ways of production with an experimental research phase in the development process they seek to shape objects with slowness and sensibility, often inspired by cutting-edge techniques and traditional craftsmanship. Their designs are produced in unique one-offs, limited editions or in larger batches, by themselves or in collaboration with skilled craftsmen or producers.

A large, moss-covered rock sits in a forest. The rock is covered in a thick layer of vibrant green moss, with some bare rock visible on its sides. The background is a dense forest of tall, thin trees, and the foreground is filled with more moss and blurred greenery.
